OVER THE PAST 30 YEARS WE HAVE WORKED WITH

Coveya has built a reputation for excellence over the past 30 years and is now one of the most respected conveyor manufacturers and suppliers in the UK and worldwide. We also pride ourselves on offering the best in customer care, support, and training.

We have many years' experience of supporting recycling and waste management companies supplying conveyors that are safe, reliable and robust. Our conveyors enable the movement of all types of recycling and waste materials; from plastic, paper to scrap metal and we have specific expertise in offering conveyors to EFW plants, AD facilities, picking and baling plants.

Regardless of the size or complexity of a site, we have a conveyor that will efficiently handle material movement, helping you to increase productivity and eliminate downtime. Coveya conveyors are available for purchase and short, as well as long term hire and each system is supported by expert installation, maintenance, servicing, and parts.

Xtra-Veya

Chain Belt Conveyor

Purchase ✓

This chain conveyor is available in 1000mm, 1500mm and 2000mm widths – where volume counts. It is designed for large volumes of recyclable waste taken from a pit or dumping area, where vehicles are extracting materials from collection rounds and then transferring waste into a fully automatic baler or compactor ready for the waste to be condensed. This is a heavy duty chain driven conveyor with metal slats that act as flights to drag the material to its discharge.

KEY FEATURES

 <p>Modular design ensures fast leadtimes</p>	 <p>Stainless steel replaceable wear parts</p>	 <p>High impact loading section Impact bars positioned under the loading section of the conveyor</p>
 <p>Adjustable support stands which can be easily positioned on site</p>	 <p>Each chain has a 24000lbs breaking strain per side</p>	 <p>Helical Bevel SEW Drive Motor</p>

SPECIFICATIONS

Power supply	415V	Belt width	1000mm, 1500mm and 2000mm
Type of material	Bulk recyclables	Belt speed	0.2m/s-1.2m/s
Loading method	Machine loading	Maximum throughput	20 tons p/h – 400 tons p/h
Mobile or static	Static	Max. incline angle	35°
Length	3.1m – 35.6m	Belt Spec	Steel flighted h/duty belt

Easikit™ Swan Neck

Purchase ✓

The Swan Neck conveyor is available in three widths: 600mm, 900mm and 1200mm. It is normally used where there is a height restriction underneath a machine such as a shredder, handling pre-shredded recyclable materials. This is a modular design which is ideal where space is limited to convey materials within a closed loop and is easily customisable to suit individual site requirements.

Belt width options

The Swan Neck conveyor is available as 600mm, 900mm and 1200mm

SPECIFICATIONS			
Power supply	415V	Belt width	600mm, 900mm and 1200mm
Type of material	Pre-shredded	Belt speed	0.2m/s-1.2m/s
Loading method	Machine loading	Maximum throughput	20 tons p/h – 100 tons p/h
Mobile or static	Static	Max. incline angle	35°
Length	3.1m – 35.6m	Belt Spec	Corrugated, Flighted sidewall belt

Easikit™ 450

Hire ✓

Purchase ✓

The Easikit™ 450 is a simple and compact modular system with a large capacity, which is perfect for low volume material handling. Its robust and compact design gives it the flexibility to transfer light – medium recyclables when space may be limited and throughputs don't warrant a large conveyor.

SPECIFICATIONS	
Power supply	100V, 415V or 240V
Type of material	Recycling materials
Loading method	By hand, Small machine, Other conveyor
Mobile or static	Static
Length	Up to 20m
Weight	Variable 50kg/m
Belt width	450mm
Belt speed	0.3m/s, 0.7m/s, 0.9m/s + 1.2m/s
Maximum throughput	50 tons p/h
Hopper size (if used)	630 x 800mm
Max. incline angle	45°

SECTIONS	L (mm)	W (mm)	H (mm)	Kg
Head Unit (no motor)	960	585	310	53
Base tension unit	1190	555	310	72
1m section	1050	525	310	35
2m section	2050	525	310	65

CASE STUDY

Glass Recycling

We were approached to supply reliable conveyors for a glass recycling application. Working alongside a CAD designer that we had already worked with, we were able to supply at short notice, 16 Easikit 450 conveyors enabling our customer to get their operation up and running quickly, eliminating downtime.

Easikit™ 600

Hire ✓

Purchase ✓

The Easikit™ 600 is a popular conveyor on recycling and waste sites, transferring waste from bays and across yards to other storage areas, or awaiting vehicles due to its considerable capacity and ease of loading from other machinery.

SPECIFICATIONS			
Power supply	415v or 240v	Belt width	600mm
Type of material	Recycling materials	Belt speed	0.2m/s – 1.2 m/s
Loading method	By hand, Excavator, Small machine, Other conveyor	Maximum throughput	100 tons p/h
Mobile or static	Static	Hopper size (if used)	785 x 850mm or 940 x 940mm
Length	Up to 40m	Max. incline angle	35°
Weight	Variable 70kg/m		

SECTIONS	L (mm)	W (mm)	H (mm)	Kg
Head Unit (no motor)	1505	930	285	85
Head Unit (with motor)	1525	1015	300	120
Base tension unit	1545	730	285	93
1.2m section	1350	620	285	43
2.4m section	2550	625	285	85
Available lengths	2.86, 4.06, 6.46, 7.66, 8.86, 10.06, 11.26, 12.46, 13.66, 14.86, 16.06, 17.26, 18.46, 19.66, 20.86, 22.06, 23.26, 24.46, 25.66, 26.86			
Other	Plain, 15mm chevron, 50mm cleated belt	Fully galvanised		

CASE STUDY

Glastonbury Festival

Glastonbury Festival revellers leave on average 2,500 tons of rubbish behind and as part of Worthy Farms, 'Leave no trace' policy, more than half of that waste is recycled by an army of 440 volunteers. Coveya supplied and installed 11 Easikit 600 conveyors totally 110 metres in length, which enabled efficient waste picking during and after the festival.

The "spider" architecture was quickly built, with eight "leg" belts for waste picking feeding onto the main removal line. With two shifts of ten volunteers on each belt and several more for unloading and loading, the pickers worked 16 hours a day to sort through each bag of rubbish and remove all plastic, paper, and aluminium.

Easikit™ 900

Hire ✓

Purchase ✓

The modular Easikit™ 900 is designed to support high-volume loads and larger throughput which makes it perfect for recyclables and bulk materials handling. It can reach up to 40m on a single belt and with adjustable speeds of 0.2 – 1.2m/s, the Easikit™ 900 helps to significantly improve onsite productivity.

SPECIFICATIONS			
Power supply	415v or 240v	Belt width	900mm
Type of material	Bulk materials, Recyclables	Belt speed	0.2m/s – 1.2 m/s
Loading method	By hand, Excavation, Other conveyor	Maximum throughput	125 tons p/h
Mobile or static	Static	Hopper size (if used)	940 x 1240mm
Length	Up to 40m	Max. incline angle	35°
Weight	Variable 80kg/m		

CASE STUDY

Westbury Packaging Waste to baler

Westbury Packaging in Melksham moved to new premises and needed a system for transferring cardboard waste offcuts from die cutting machines to a baler situated outside. We offered a solution using our Easikit 600 & 900 conveyors going from one side of the warehouse to the other, with effective removal of the waste and no costly breakdowns.

SECTIONS	L (mm)	W (mm)	H (mm)	Kg
Head Unit (no motor)	1500	1225	310	103
Head Unit (with motor)	1500	1315	310	138
Base tension unit	1500	1020	285	111
1.2m section	1350	925	285	52
2.4m section	2550	925	285	96
Available lengths	2.86, 4.06, 6.46, 7.66, 8.86, 10.06, 11.26, 12.46, 13.66, 14.86, 16.06, 17.26, 18.46, 19.66, 20.86, 22.06, 23.26, 24.46, 25.66, 26.86			
Other	Plain, 15mm chevron, 50mm cleated belt	Fully galvanised		

Easikit™ 1200

Hire ✓

Purchase ✓

The Easikit™ 1200 has an extra wide 1200mm belt which optimises throughput safely. It's extremely robust and is ideal for fast, efficient bulk materials handling, making it popular for large volume industrial applications, shifting up to 150 tons per hour.

SPECIFICATIONS			
Power supply	415V	Belt width	1200mm
Type of material	Bulk materials, Recyclables	Belt speed	0.2m/s – 1.2 m/s
Loading method	By hand, Excavator, Small machine, Other conveyor	Maximum throughput	150 tons p/h
Mobile or static	Static	Hopper size (if used)	940 x 1540mm
Length	Up to 40m	Max. incline angle	35°
Weight	Variable 80kg/m		

SECTIONS	L (mm)	W (mm)	H (mm)	Kg
Head Unit (no motor)	1500	1525	310	122
Head Unit (with motor)	1500	1615	310	157

1.2m section	1245	1225	285	54
2.4m section	2445	1225	285	100
Available lengths	2.86, 4.06, 6.46, 7.66, 8.86, 10.06, 11.26, 12.46, 13.66, 14.86, 16.06, 17.26, 18.46, 19.66, 20.86, 22.06, 23.26, 24.46, 25.66, 26.86			
Other	Plain, 15mm chevron, 50mm cleated belt	Fully galvanised		

CASE STUDY

Swansea City Waste Disposal

The Coveya team were asked by Swansea City Waste Disposal to visit their site and design a conveyor solution that would span 26m in length in order to sort black bag waste from household waste collections. Our Easikit 1200 Flatbed and Easikit 900 conveyors with 1200mm width were the perfect conveyors, enabling waste to be transferred efficiently to picking lines and then taken away after it's been sorted. Swansea City Waste Disposal decided to purchase the conveyors safe in the knowledge they are fully supported by Coveya's expert after-sales service.

WHAT OUR CUSTOMERS SAY

"We have worked with Easikit conveyor for many years now and we have several across the facility. The great advantage with Easikit is that it is a modular system and easier to install with conveyor sections being lifted onto an elevated platform, working at heights. It made it far safer for contractors and the installation crew. We have constructed a picking line within an existing facility which limited space and access and the Easikit is helping us to process between 80 and 100 tonnes of waste per day, recycling 20 – 25%. Parts are on carriage the next day which helps us to keep the equipment running without any downtime and they provide a very good back-up service".

Chris Fender, Swansea Waste

Easikit™ 1500

[Purchase ✓](#)

The extra wide, modular Easikit™ 1500 is designed for high-volume, low density material handling. It's simple to assemble, making it perfect for a range of applications and environments, enabling material to naturally spread across the conveyor for easy sorting and picking.

SPECIFICATIONS			
Power supply	415V	Belt width	1500mm
Type of material	Bulk materials, Recyclables	Belt speed	0.2 m/s – 1.2m/s
Loading method	By hand, Excavator, Small machine, Other conveyor	Maximum throughput	250 tons p/h
Mobile or static	Static	Hopper size (if used)	940 x 1935mm
Length	Up to 30m	Max. incline angle	35°

Invader 45™

Hire ✓

Purchase ✓

Designed for mobility, power and ease of use, our unique ‘plug and play’ conveyor provides an immediate solution. It’s really easy and quick to set up and move around site with its optional wheeled undercarriage.

The Invader 45™ is extremely reliable (with 99% trouble-free rental across 9,000 rental days), low maintenance, economical to run and has been designed to eliminate downtime.

PRODUCT FEATURES

SPECIFICATIONS	
Power supply	110V
Type of material	Recycling materials
Loading method	By hand, Small machine, Wheelbarrow
Mobile or static	Mobile, Static
Length	4m or 6m
Weight	160kg or 200kg
Belt width	450mm
Belt speed	0.75m/s
Maximum throughput	50 tons p/h
Hopper size (if used)	650 x 800mm
Max. incline angle	40°
Belt load	200kg
Motor power	1.5kW
Max discharge height	2525mm or 3715mm

WHAT OUR CUSTOMERS SAY

"I have had six Invaders on hire for six weeks and haven't had a single phone call. We've never had a hire like this with any other conveyors".

Depot Manager,
Plant Hire (London)

"For larger jobs and demolition works, I put the Invaders out because they just don't give me any problems."

Depot Manager,
Tool Hire Company

"It's saved me thousands of man-hours. It's the best bit of kit we've ever had on this site!"

Site Supervisor,
Construction Company

Easikit™ Mobile

Hire ✓

Purchase ✓

The Easikit™ Mobile 600, 900 & 1200 is the ideal solution for variable discharge heights. It's durable, weatherproof, easy to move around onsite and has a hydraulic ram to achieve inclines of up to 35 degrees.

SPECIFICATIONS			
Power supply	110V, 415V or hydraulic	Belt width	600mm, 900mm, 1200mm
Type of material	Aggregate, Recyclables, Sludge, Soil	Belt speed	0.2 m/s – 1.2 m/s
Loading method	By hand, Excavator, Small machine, Other conveyor	Maximum throughput	100 tons p/h
Mobile or static	Mobile	Hopper size (if used)	Small, Medium and Mega
Length	Up to 14.86m	Max. incline angle	35°
Weight	Variable 100kg/m		

Easikit™ Radial

Hire ✓

Purchase ✓

Built to order, the Easikit™ 600, 900 & 1200 Radial is ideal for projects where a combination of radial slewing movements and variable discharge positions are needed. With its fixed feed point and powered radial wheels, this model rotates through a full 360-degree arc and is supplied with a hydraulic ram and hand pump for easy height adjustment.

SPECIFICATIONS			
Power supply	415V	Belt width	600mm, 900mm, 1200mm
Type of material	Recyclables, Sludge	Belt speed	0.2 m/s – 1.2 m/s
Loading method	By hand, Excavator, Small machine, Other conveyor	Maximum throughput	25 tons p/h – 100 tons p/h
Mobile or static	Mobile	Hopper size (if used)	Small, Medium and Rounded
Length	Up to 12.46m	Max. incline angle	30°
Weight	1000kg

conveyor for your specific needs

Easikit™ Flatbed

[Purchase ✓](#)

The Flatbed conveyor is available in four widths – 600, 900, 1200 and 1500mm wide – and is predominantly used for dry materials handling in the recycling industry. This very robust conveyor is great for baler infeed or picking line conveyors and is easily customisable to suit individual site requirements.

SPECIFICATIONS			
Power supply	415V	Belt width	600mm, 900mm, 1200mm, 1500mm
Type of material	Cardboard/paper, Dry waste, Mixed recyclables	Belt speed	0.2m/s-1.2m/s
Loading method	By hand, Machine loading, Conveyor feed	Maximum throughput	20 tons p/h – 100 tons p/h
Mobile or static	Static & Mobile	Max. incline angle	35°
Length	3.1m – 35.6m	Belt Spec	Plain smooth, Grip top, 50mm Flighted Belt

Can be finished in custom RAL colours to match your existing equipment on site

Belt width options

The Flatbed conveyor is available as 600mm, 900mm, 1200mm and 1500mm

WITH 30 YEARS' EXPERIENCE OF MANUFACTURING, SUPPLYING, MAINTAINING AND SERVICING OUR EXTENSIVE RANGE OF CONVEYOR SYSTEMS, COVEYA LEAD THE WAY IN SUPPORTING AN ARRAY OF INDUSTRIES TO EFFICIENTLY MOVE A VARIETY OF MATERIALS

The Easibelt™

Hire ✓

Purchase ✓

The Easibelt™ is reliable, compact and high quality. It is built from zinc-plated steel and is easy to adapt and reconfigure on your site. The system is engineered for longevity and ease, as it is quick to install and robust in its construction.

SPECIFICATIONS	
Power supply	230V, 415V
Type of material	Unit handling, Light recyclables
Loading method	By hand, Machine loading
Mobile or static	Static
Length	Over 20 standard lengths from 0.9m – 12.9m
Belt width	300mm, 600mm, 900mm (other lengths available)
Belt speed	0.2 - 0.9m/s
Max. incline angle	25°

HC1000 Monstaveya™

Hire ✓

Purchase ✓

Precision-engineered for heavy-duty materials movement, the HC1000 Monstaveya™ is our most powerful conveyor solution. Designed to handle virtually all types of material safely and easily, this high-capacity unit provides exceptional throughput and durability, ideal for even the most challenging projects. It's capable of loading an 8-wheeler in just 6 minutes and this hardwearing conveyor helps to minimise downtime, reduce fuel, maintenance and labour costs from day one.

SPECIFICATIONS	
Power supply	415V
Type of material	Aggregate, Demolition rubble, Excavation spoil, Rubble, Small rubble, Soil
Loading method	Excavator, Large machine
Mobile or static	Static
Length	6m – 16m in 2 – 3m increments
Weight	3500kg
Belt width	1000mm
Belt speed	1.2m/s
Maximum throughput	500 tons p/h
Hopper size (if used)	1100 x 1800
Max. incline angle	30°

CASE STUDY

MW White Ltd

MW White Ltd had a very old heavy duty chain conveyor that kept breaking down with expensive repairs to get it up and running and we were asked to come up with an efficient and reliable replacement, so we supplied a 16m HC1000 Conveyor with a bespoke loading hopper so that waste could be pushed onto the conveyor with a forklift attachment. With the help of 100mm high, 20mm thick flights the waste was taken up to the awaiting picking line.

Bulk Feed Hopper FH510

Hire ✓

Purchase ✓

Our Bulk Feeder Hopper is designed to provide a controlled flow of material onto our conveyors, allowing operators to load systems efficiently with a wheeled loader or excavator. It provides a buffer of material to ensure continuous loading with a speed-adjustable belt.

SPECIFICATIONS			
Industry	Recycling, Demolition & Remediation, Agriculture, Aggregates	Bulk capacity	15m ³
Power supply	415v Drive	Length	5m
Legs	Adjustable height	Width	2m
Discharge height	1m – 1.5m	Height	3.5m
Belt speed	Variable	Weight	5500kg
Discharge gate	Adjustable		

Capacity options

TheBulk Feed Hopper is available with 9m³, 12m³ and 15m³ capacities

Tracked Stockpiler

Hire ✓

Purchase ✓

The Coveya Wheeled & Tracked Stockpiler is the perfect solution for stockpiling materials. Its delivered on a low loader serviced, assembled and ready to use. The Coveya stockpiler is the perfect solution for stockpiling and handling high volumes of material from wheeled loaders, large excavators or direct from crushing units.

SPECIFICATIONS	
Industry	Animal feeds & agriculture, Composting & biomass, Demolition, Rail, Recycling
Type of material	Aggregate, Bulk materials
Loading method	Small machine
Mobile or static	Mobile
Length	18.0m
Weight	7500kg
Belt width	900mm
Belt speed	1.2m/s
Maximum throughput	500 Tons p/h

WE OFFER FREE EXPERT ADVICE AND SUPPORT

making sure you find the right conveyor for your specific needs

Easikit™ Extras | Electrical Buy ✓**Emergency Stop Grab Wires**

Can be mounted on either side of the conveyor to provide a continuous emergency stop system for the full length of the conveyor. Supplied complete with eye bolts – a legal requirement for conveyors over 5m in length and accessible.

PRICE CODE	
Up to 10m	630

**Motor Starter**

Direct-on-line starter in durable enclosure incorporating thermal overload for motor protection. Sealed to IP65. Supplied loose.

Easikit™ Extras | Covers Buy ✓**Side Guide Top Covers**

These Top Covers are designed to fit on top of our standard Side Guides. Provides the solution when both a continuous rubber skirt on the belt and an easily removable cover for maintenance is required. Also makes an ideal cover when larger bulky items are being moved that will not fit under our standard Top Covers.

Easikit™ 600	645	646

Disc Return Rollers

Fitted with metal discs to help prevent material build-up on the roller itself. Recommended for use with sticky or difficult materials. Only suitable for use with plain or cleated belt.

	PRICE CODE
Easikit™ 600	655
Easikit™ 900	955
Easikit™ 1200	1255
Easikit™ 1500	1555

Note: Disc return rollers supplied as Easikit™ 1500

Auto Grease Units

This is a self contained unit designed to automatically lubricate the bearing over a period of one to twelve months. Once fitted and activated, it will work without attention until its allotted lifespan is over.

Support Stands & Stringers

Adjustable Support Stands

Our modular support system for EASIKIT™ Conveyors is a cost-effective, combined design. The stands utilise a modular design with cross-bracing for heights of up to 20ft or higher, depending on site conditions.

STAND	HEIGHT TO UNDERSIDE	EK450	EK600	EK900	EK1200
1	13.5"	251	261	271	241
2	27.5 – 47.25"	252	262	272	242
3	57 – 97.5"	253	263	273	243
4	104.25 – 145"	254	264	274	244
5	151.5 – 192"	255	265	275	245
6	199 – 239.25"	256	266	276	246

*Note: Pricing and availability for EK1500 support stands available on request.

Support Stringers

Fitted to the underside of the conveyor frame in modular 4' (1.2m) and 8' (2.4m) lengths. Provides adequate support for spans of up to 20ft centres (depending on loading). Constructed from galvanized 'C' section, thus increasing conveyor frame height by 3" (75mm). This can also be used as a cable tray.
