## OVER THE PAST 30 YEARS WE HAVE WORKED WITH

**Coveya offers a diverse range of conveyor systems for hire and purchase to help streamline your processes. Whether you are a new company, experiencing increases in demand or an established company looking to increase capacity, Coveya can provide you with the solution.**

With sites in Warmley & Yate and global distributors, Coveya can provide your business with the appropriate solutions and servicing with short lead in times.

**Conveyor rental**

Conveyors are available for short or long-term rental, so you can save money by avoiding the expense of buying one.

**Fast delivery**

We aim to deliver your rental conveyor to you within one week of your order.

**Seamless service**

We provide a seamless service, from the initial quote to delivery, installation, maintenance, and customer care.

**Innovative and reliable**

We invest in innovative conveyor technology and have a wide range of conveyors to meet your specific needs.

**Trusted supplier**

We are the largest and most respected supplier of rental conveyors in the world.

**Wide range of applications**

We can help with a wide range of applications, from online sales and returns to food distribution, manufacturing, and logistics.

# Easibelt™ Conveyor

The Easibelt™ is reliable, compact and high-quality, making it perfect for factories and warehouses without the need to design a bespoke conveyor. The Easibelt™ is built using mild steel folded plate and is easy to reconfigure due to its modular design. The system is engineered for longevity and ease, as it is quick to install and robust in its construction.

SPECIFICATIONS	
Industry	Factories & Warehouses
Power supply	230V or 415V
Type of material	Unit handling
Loading method	By hand and machine
Mobile or static	Static or on swivel lock castors
Length	Over 20 standard lengths from 0.9m – 12.9m
Belt width	300mm, 450mm, 600mm, 900mm (other custom widths available)
Belt speed	0.2 - 0.9m/s
Max. incline angle	35°

# The Easikit™ Flatbed

The Easikit™ Flatbed conveyor is available in four widths – 600, 900, 1200 and 1500mm wide – and is predominantly used for dry materials handling. This very robust conveyor is great for baler or compact infeed conveyors and is easily customisable to suit individual site requirements.

SPECIFICATIONS	
Industry	Recycling, Manufacturing & Distribution
Power supply	415v
Type of material	Cardboard/paper, Dry waste, Mixed recyclables
Loading method	By hand, Machine loading, Conveyor feed
Mobile or static	Static & Mobile
Length	2m - 40m
Belt width	300mm, 450mm, 600mm, 900mm, 1200mm, 1500mm
Belt speed	0.2m/s-1.2m/s
Maximum throughput	Up to 120 Tons p/h
Max. incline angle	40°
Belt Spec	Plain smooth, Grip top, Chevron, 50mm Flighted Belt & Side Wall

# Easikit™ Modular Conveyors

The Easikit™ range offers a modular, simple troughed belt conveyor solution for handling loose products, reaching up to 50m on a single belt with adjustable belt speeds of 0.2m/s – 1.2m/s. The Easikit range is respected worldwide and offers flexibility and quality.

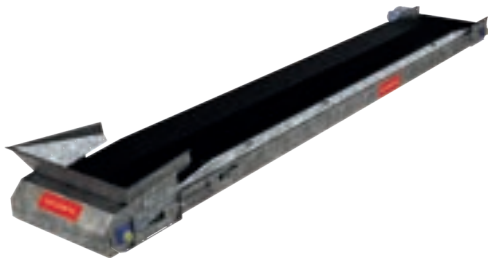

## EASIKIT™ 450: SPECIFICATIONS

Belt width	450mm
Section width	530mm
Section depth	310mm
Build	Hot galvanised steel

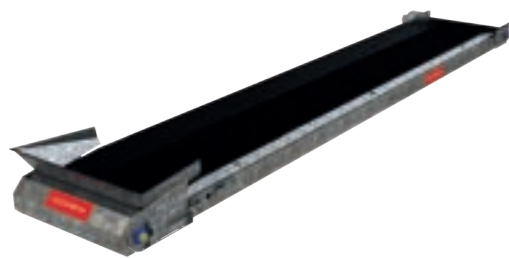

## EASIKIT™ 600: SPECIFICATIONS

Belt width	600mm
Section width	625mm
Section depth	285mm
Build	Hot dip galvanised steel

## EASIKIT™ 900: SPECIFICATIONS

Belt width	900mm
Section width	925mm
Section depth	285mm
Build	Hot dip galvanised steel

## EASIKIT™ 1200: SPECIFICATIONS

Belt width	1200mm
Section width	1225mm
Section depth	285mm
Build	Hot dip galvanised steel

### WHY EASIKIT™?

- ✓ Ideal for restricted access handling.
- ✓ Operates at very steep inclines.
- ✓ Designed for efficiency and simple installation to minimise downtime.
- ✓ Durable, galvanised construction for rock solid reliability.
- ✓ Low maintenance requirements.
- ✓ Fast lead times.

# Gravity Roller Conveyor

**Coveya offer a large range of gravity roller conveyors for almost any project or industry. These conveyors are modular, quick, and easy to set up and come in a wide variety of roller widths – 300mm to 1200mm.**

Many types of rollers and frame materials can be selected including aluminium and stainless steel to suit food grade applications. The conveyors can incorporate bend sections, lift-up gates, ball tables and can be easily linked to other powered conveyors.

SPECIFICATIONS	
Industry	Factories & Warehouses, Manufacturing, Distribution & Logistics
Type of material	Boxes, totes, cartons (all products with solid surfaces)
Loading method	By hand, machine, conveyor, forklift
Mobile or static	Static or swivel locking castors
Length	1-100m
Roller width	200-1500mm
Roller pitch	67mm, 100mm, 133mm or 166mm (custom pitches available)
Roller Diameter	20-50mm (custom diameters available)

# Expandaveyor

**The PVC Roller Flexible Conveyor has been designed specifically as a cost effective solution for efficiently transporting product.**

Available on short lead times the Expandaveyor is one of the most popular and versatile conveyors and is capable of conveying a range of items, forming complex bends where required and it contracts to a fraction of its extended length for storage. The Expandaveyor Conveyor has a wide variety of roller types and is available as gravity driven or electrically powered.

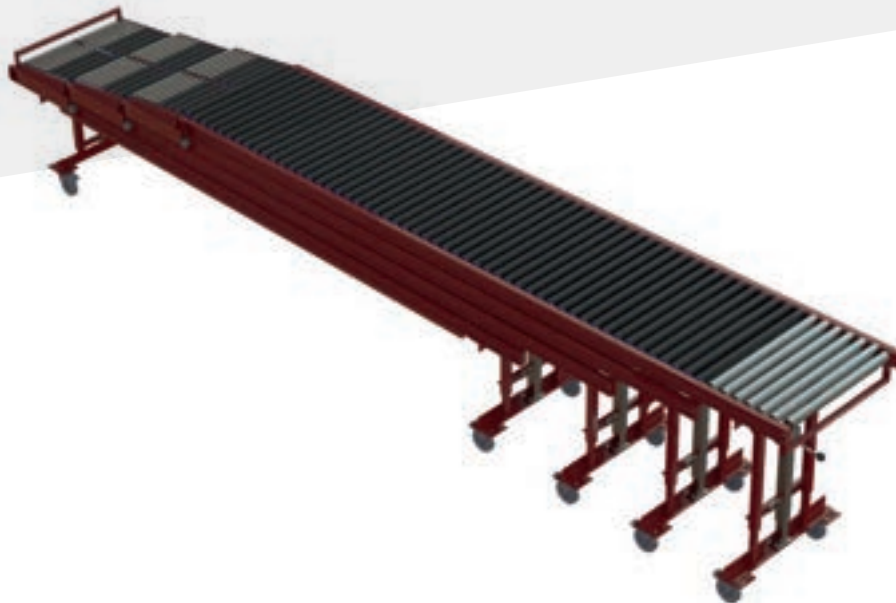

## SPECIFICATIONS

Roller types	<ul style="list-style-type: none"> <li>• PVC Skatewheel</li> <li>• Bright Zinc Plated Steel Skatewheel</li> <li>• PVC Roller</li> <li>• Bright Zinc Plated Steel Roller</li> </ul>
Width	300mm – 1200mm
Construction	Mild Steel Zinc Plated
Roller diameters	40mm or 50mm
Roller pitch	100mm, 125mm, 150mm
Available as	Standard duty or 12 axle heavy duty
Length	1.5m – 9.5m

# Dock Level Telescopic Loading & Unloading Conveyor

The Dock Level Telescopic Conveyor has been designed specifically as a cost-effective solution for efficient loading and unloading of shipping containers and trailers over a level loading dock.

SPECIFICATIONS	
Type of material	Boxes, Totes, Cartons (Solid Surface Items)
Loading method	By hand
Mobile or static	Mobile
Roller width	600mm and 700mm
Minimum length	5.4m
Maximum length	16-20m
Height	685mm – 1335mm

# High Rise Telescopic Unloading Conveyor

**The Coveya High-Rise Telescopic conveyor has been developed as a safe, cost-effective solution for quickly unloading shipping containers or trailers where no level loading dock is available.**

The telescopic conveyor will extend up to 10m inside the shipping container or trailer and will convey cartons under gravity to an offload point at ground level. The High-Rise Telescopic Conveyor can be further extended outside the shipping container by attaching a flexible extending conveyor.

SPECIFICATIONS	
Penetration	10m into trailer
Trailer floor height	1.3m – 1.6m
Load height above bed	900mm – 1.2m
Discharge height	1.1m – 1.4m
Rollers	50mm diameter high impact PVC
Load rating	20kg uniformly distributed (80kg at load point and 50kg per linear metre)
Overhanging loads	Up to 900mm
End stop plate	Yes
Length outside trailer	6.5m
Storage size	4.5m x 1.1m & 3.2m x 700mm

KEY BENEFITS	
•	Significantly reduces time taken to unload loose loaded trailers and shipping containers.
•	10m penetration into any trailer or shipping container.
•	Reduces number of personnel required.
•	Reduces risk of manual handling injury.
•	Fast running PVC rollers utilizing heavy duty steel where needed at the load point.
•	Makes the best use of gravity to move varying box weights at the right speed as all stands are fully adjustable using a winding handle.
•	Connects on to other conveyors with a drop-down end-stop connector.
•	Fully welded construction powder coated in your specified RAL colour.

# Mist-Safe

## Sanitisation Conveyor

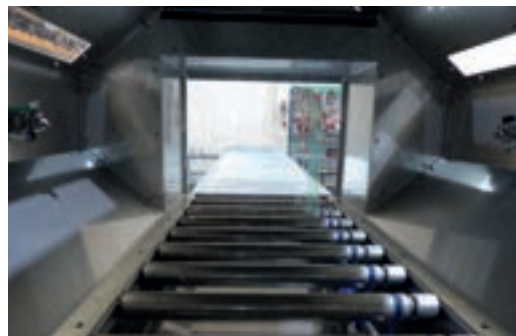

**The Mist-Safe is a sanitiser tunnel that works in unison with a Powered Roller Conveyor and can sanitise up to 360 boxes per hour. It is the perfect solution for distressed load management or for the safe processing of return items.**

### WHY CHOOSE MIST-SAFE?

- ✓ It's versatile, efficient and very easy and quick to set up
- ✓ It's easy to operate & recommended sanitiser continues to kill viruses up to 7 days after application
- ✓ Its clever design means that no cartons passing through it are damaged

- ✓ Mist-Safe carries on Coveya's commitment for quality
- ✓ Designed and manufactured by our own Bristol-based expert team

# Pallet Roller Conveyor

**Coveya offer a robust range of Pallet Conveyors with heavy duty steel frames and high load capacity rollers. These conveyors can be customised to suit the load being conveyed and can either be gravity driven or electrically powered.**

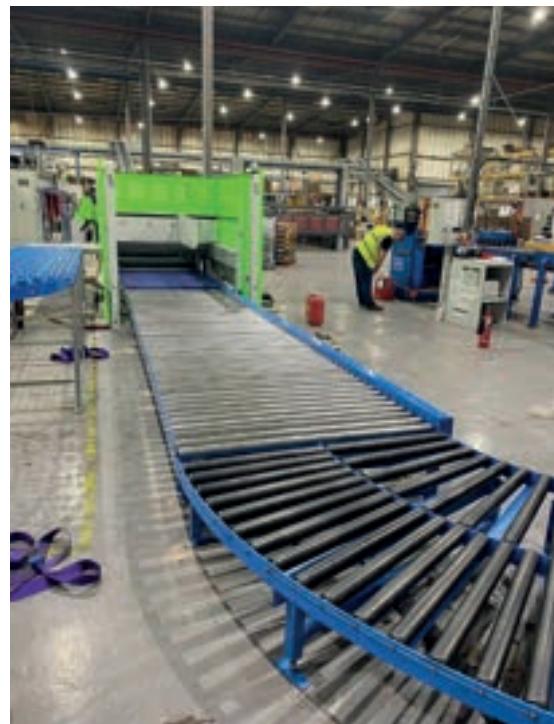

Built to carry weights up to 8 tons and with widths available up to 2000mm our pallet conveyors can be customised to suit the load being conveyed.

For cold store applications, our pallet conveyors can be upgraded to operate in temperatures of -30 degrees Celsius and can run easily without assistance.

To allow for all kinds of applications, we have a standard range of transfer modules that can be added to ensure that the conveyor meets the needs and speed of your business.

SPECIFICATIONS	
Construction	Mild steel galvanised or powder coated and stainless steel.
Length	1m – 50m
Roller Pitch	150mm or 200mm
Roller Width	1200mm up to 2000mm
Max. capacity	Up to 8000kg pallets
Heights	Range of heights from 200mm – 1000mm top of roller

# Rave Reviews

**Coveya has an enviable reputation for brilliant products and outstanding levels of service. Read some of our customer's glowing testimonials to see how we make the difference.**

"I would recommend Coveya to anyone looking to improve efficiency and productivity. They were a great company to work with start to finish and fully supportive of our project."

**Head of Operations, Ashtons**

"I would recommend Coveya, they have been easy to deal with, the products been very good. I would definitely recommend them."

**Logistics & Supply Chain Director, BRITA Group**

"Coveya has been very responsive to our needs, and we are pleased with what has been supplied so far."

**Director, Oakland International**

"Brilliant piece of equipment saved us hours of time and potential expense, and should we have these levels of demand in the future we will be in touch again"

**Director, Somerset Toiletry Company**

"They made a big difference for us... [We've] managed to sort all our needs out, and it's really nice working with people who enjoy what they do."

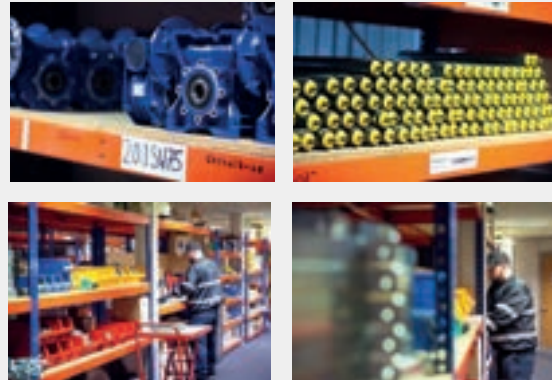

**Operations Director, Food Attraction**

# Spares

Coveya offers an extensive range of parts for all of our conveyor systems and our expert team is on hand to help you with your order and to provide more information if you need it. With parts stock available at our Bristol warehouse, we aim to dispatch your part to you as quickly as possible.

We have an extensive range of maintenance manuals and videos on our website that offer quick and simple additional support.

# Get in touch

**Coveya is a market-leading manufacturer and supplier of a range of commercial and industrial conveyor systems, for purchase or hire, supporting customers globally.**

With over 30 years' experience, our ongoing success stems from the quality of our products, modular conveyors, our commitment to exemplary customer service and our investment in the design and development of conveyors that support current and future customer needs.

We strive to deliver a complete materials handling solution; from free site visits and advice,

to implementation, servicing and repair, and with a high percentage of repeat customers, the Coveya team always focus on adding value and delivering more.
