COVEYA

The Easiveyor™

The Easiveyor™ is a unique, road-towable 5 metre Easikit™ 450 conveyor mounted on a trailer chassis, which is perfect for steel fibre handling. It comes complete with a 1.5kW 110v wired connection - simply 'plug-and-play' right off the truck and with an empty weight of well under 750kgs, the Easiveyor™ can be towed by most vehicles without any special licence.

The Easiveyor is a road towable unit complete witha 6 metre Easikit 450 conveyor mounted on a trailer chassis fitted with a hand pump to provide variable discharge heights.

This versatile unit is a popular choice where speed of delivery and manoeuvrability is required. Weighs less than 750kgs!

An ideal conveyor to suit a large variety of applications from loading steel fibres into concrete mixers to mucking out the stable!

SPECIFICATIONS			
Industry	Agriculture, Ready Mix Concrete Additive, Aggregates	Weight	685kg
Power supply	110V	Belt width	450mm
Type of material	Steel fibres	Belt speed	0.6m/s
Loading method	By hand, From boxes	Maximum throughput	300 tons p/h
Mobile or static	Mobile	Hopper size (if used)	630 x 800mm
Length	5m	Max. incline angle	45°
